## Allied Bombers Hit Nazi City Three Times In 12 Hours

#### HEAVY FIGHTING IN OTHER SECTORS

By NATALIA RENE  
(U. S. Staff Correspondent)

MOSCOW, Feb. 26.—After a 15-mile advance in 24 hours, powerful Soviet columns reached the outskirts of Pskov, gateway to Estonia and Latvia, Soviet front dispatches reported today.

While one Russian force plunged into the outskirts of the great bastion in a push from Dno, a second rushed to within six miles north of Pskov in a drive that threatened the German garrison's rear, the dispatches declared.

#### Powerful Stronghold

Pskov is one of the four powerful strongholds shielding the Baltic States that are menaced by Red army troops racing through wide gaps torn in crumbling Nazi lines in north and central Russia.

Three separate columns are driving on Pskov, while other Russian forces are pushing north from captured Rogachev toward the key communication hubs of Moeylev, Orsha and Vitebsk.

A German agency's announcement that Nazi troops had evacuated Vitebsk appeared premature, as subsequent German broadcasts did not repeat the announcement and it was not confirmed by either the German or Soviet high commands. The Nazi communique said Red army attacks southeast of Vitebsk to the most powerful German base on the central front, had "failed."

#### Fighting Near Vitebsk

(The Nazi-controlled Paris radio, in a broadcast late this morning, said "heavy fighting continues southwest of Vitebsk, where the Russians are closely pressing the (Continued On Page Two)

## PA NEW OBSERVES

Warning was issued by the OPA of the district today to holders of ration books No. 1 and 3 not to throw them away when the new token system goes into effect tomorrow. There are still stamps of value in the books.

On Monday the Red Cross Mobile Blood Donor Unit will arrive in New Castle for its second stay. While the number of volunteers is good for the early part of the visit many donors are still needed for later days, it is reported. Volunteers should be added to the list of donors at once.

The spring-like day that developed yesterday brought a lot of signs of spring in the activities of boys and girls in the city. Bicycle-riding got away to a big start for the coming spring and summer season, at least.

Due to delays in her schedule earlier in the day, Mrs. Eleanor Roosevelt, wife of the President of the United States did not get to the Deshon General Hospital Friday afternoon. It had been announced that Mrs. Roosevelt would visit the hospital as a part of her trip to Pittsburgh.

According to the Pennsylvania highway detour bulletin for the period ending March 31, there are only seven actual detours in the whole state. There are a few of the projects on which traffic is being maintained, and several bridges are being rebuilt where traffic is maintained over temporary bridges. In addition are four construction jobs, where the contract has been let and work is to start at a later date.

## GUAM LIKELY TO BE BATTLE CENTER

By CAPT. JOHN H. CRAIG  
(Written Especially for N. S. S.)

The brilliant raid by a U. S. fleet task force on Saipan and Tinian highlights a place that is likely to become famous before our war with Japan is finished—the island of Guam. Saipan and Tinian are outposts of Guam to the north. Although the American blow landed on them, its intended effect was undoubtedly to signalize the beginning of a campaign to "whittle down" Guam's military strength.

Guam, Key Base  
Guam's importance in the scheme of the Pacific war lies in the fact

that it constitutes the key-base in the strategic and tactical scheme by which one school of naval-military thought believes our conflict with Japan can be won.

Nearly all naval and military authorities agreed that a war between the United States and Japan would begin with a Japanese offensive that would take the Philippines and Guam. This happened in 1941-42. Then, also according to nearly unanimous opinion, would occur a period of stabilization, while the United States mobilized our enormous resources. Then would come (Continued On Page Two)

## President Says '44 Crucial Year Of Present War

Calls For Review Of All Oc-  
cupational Draft Defer-  
ments In Nation

By ROBERT G. NIXON  
(U. S. Staff Correspondent)

WASHINGTON, Feb. 26.—Declaring that 1944 will be the "crucial" year of the war, President Roosevelt called today for a review of all occupational draft deferments to make up a "grave shortage" of manpower for the armed forces.

The President cited the fact that almost five million men of draft age have been deferred from military service, including almost 550,000 non-fathers under 26 years of age, who have been deferred in agriculture.

The President also flatly stated that "the Army will not reach its planned January strength until some time in April or even later if selective service continues to fall behind on its quota."

"The crucial campaigns of this year will determine both the length of this war and its price in men and goods," Mr. Roosevelt asserted.

The Chief Executive made his request in a joint message sent to Paul V. McNutt, chairman of the War Relocation Authority, and to Maj. Gen. Lewis B. Hershey, director of selective service. In his message the President emphasized there is a grave shortage in draft requirements at this time.

## Understand Terms For Armistice By Soviet Reasonable

U. S. Government Said To Re-  
gard Terms To Finland As  
Extremely Reasonable

By KINGSBURY SMITH  
(U. S. Staff Correspondent)

WASHINGTON, Feb. 26.—The United States government is understood today to regard as extremely reasonable the armistice terms which Russia has submitted to Finland.

Furthermore, official Washington views the Soviet offer as Finland's last chance to get out of the war without suffering complete military defeat and the consequent imposition of harsh terms imposed under unconditional surrender.

It would cause no surprise in Washington diplomatic circles if the American government was using its influence to persuade the Finns to accept the Soviet terms.

It was definitely ascertained in authoritative quarters that Russia, in an effort to bring about Finland's quick withdrawal from the war, has refrained from insisting on unconditional surrender.

## Washington Roundup

(International News Service)

It is understood in Washington today that the United States government regards Russia's peace terms to Finland as extremely reasonable. Authoritative quarters say Russia is not insisting on unconditional surrender. Officials view the Soviet offer as Finland's last chance to get out of the war without suffering complete military defeat and it is believed this government is advising the Finns to accept the terms.

With the new tax bill passed into law over President Roosevelt's veto, the house ways and means committee is preparing to take up the matter of tax simplification. A preliminary report on incomplete recommendations for integration of the victory, normal and surtax levies will be heard next week.

Congress itself is shaken by the death of Minority Leader McNary of Oregon. The GOP leadership is likely to fall to Sens. Vandenberg of Michigan, White of Maine or Taft of Ohio.

## Gen. MacArthur Speaks To Troops In New Guinea

By FRANK ROBERTSON  
(U. S. Staff Correspondent)

GEN. MACARTHUR'S HEAD-QUARTERS, New Guinea, Feb. 26.—Speaking to his troops at large for the first time, General Douglas MacArthur today declared that no other campaign in military history has entailed greater hardships than that on New Guinea.

In a talk to combined American and Australian soldiers at the opening of a New Guinea radio station, General MacArthur said:

"My first thought is to tell you of the gratitude and admiration I feel at your splendid fortitude and fighting efficiency. No other troops in the world have quailed more manfully in the immortal traditions of a fighting service."

"You are faithfully carrying your nation's trust," the general added. "The way before us is long and hard, but with God's help, which has so richly blessed and guided us in the past, we will finally come to the glorious end of the conflict."

The general told his men that he was greatly concerned that recreational facilities for them had to be kept to a minimum, but promised that additional comforts will be provided in the future.

## Senate Leader Must Be Named By G.O.P. Members

Vandenberg, White And Taft  
Considered As Successor To  
Late Senator McNary

By WILLIAM S. NEAL  
(U. S. Staff Correspondent)

WASHINGTON, Feb. 26.—Republican leadership of the Senate appeared likely today to fall upon one of three men—Sens. Arthur H. Vandenberg of Michigan, Wallace H. White Jr. of Maine, or Robert A. Taft of Ohio—as a result of the death of Minority Leader Charles McNary.

Stunned by the unexpected death of McNary, one of the most popular senators ever to serve in the capitol, Republicans appeared reluctant to commit themselves on the issue.

There is a possibility, some members said, that election of a permanent leader may be postponed until after the 1944 election in order to avoid injury to the party through bitterness that frequently follows the death of a leadership contest.

By FRANK ROBERTSON  
(U. S. Staff Correspondent)

GEN. MACARTHUR'S HEAD-QUARTERS, New Guinea, Feb. 26.—Allied airmen pressing their neutralization campaign against the enemy's Bismarck bases found the Japs still unwilling or unable to defend their one-mighty bastion of Rabaul, Gen. Douglas MacArthur's communique revealed today.

MacArthur's fliers raided enemy installations on New Britain, New Guinea, New Ireland and in the Admiralty and Solomon. Their targets included airfields flanking Rabaul and for the fourth successive day, the allied airmen encountered no Jap air opposition over this base.

No Enemy Interceptors  
The Rabaul assault, the 23rd of the month and carried out on Feb. 23, was directed against supply areas at Vunakana, Keravat and Vunapope airfields. Twin-engine Mitchell bombers swooped in from Solomon bases to pound the target area with 33 tons of high explosives.

Fires were kindled by the raiders. Although heavily escorted with fighters, the encountered no enemy interceptors.

Other medium and heavy bombers executed an even more forceful strike against the enemy at Reu bay, southwest of Rabaul on New Britain's coast. Fires were started when the bombardment groups dumped 107 tons of bombs on Jap (Continued On Page Two)

YANKS DESTROY  
135 ENEMY PLANES

By CLINTON GREEN  
(U. S. Staff Correspondent)

PEARL HARBOR, Feb. 26.—One more possible corner in which the Imperial Japanese fleet could have been hiding was eliminated today following announcement of the results of America's bold smash in the Mariana Islands, 1,300 miles southeast of Tokyo.

Not a single enemy warship was sighted at either Saipan or Tinian, key Nipponese bases in the Marianas, where a United States Pacific fleet task force struck a devastating blow with its powerful air arm Feb. 21-22, destroying 135 Jap aircraft and sinking or damaging eleven ships.

#### Hit Jap Inner Ring

Several hundred carrier-based planes busied aside the enemy's strong aerial resistance and flew into a curtain of intense anti-aircraft fire to carry out the strike in the inner ring of Japan's defenses. Six American planes were lost but not one Jap warship was damaged despite attacks by Japanese fighters which poured into the air to give battle as soon as the mighty American naval force was detected approaching the Marianas. ## New Atrocities Charged To Nazis In Russian Area

By NATALIA RENE

MOSCOW, Feb. 26.—Tales of wanton Nazi atrocities, including mass executions of thousands of Soviet civilians, were told today by residents of Rogachev to Red army officers whose troops liberated the city from the grip of the invaders.

Already the roar of cannon is ranging beyond eastern of the city, which lies some 60 miles northwest of Gomel on the road to Minsk. But although the Nazis now are comparatively far away, the memory of their acts remain vivid in the minds of Rogachev's civilians. Thousands of Russian citizens (Continued On Page Seven)

## BLOOD BANK TO OPEN ON MONDAY

Many Donors Are Still Needed  
For Second Week Of  
Unit's Stay Here

Unless more residents of the community rally to the call being issued by the Lawrence county chapter, American Red Cross, New Castle will fall down for the first time on a worthwhile project. This is the blood bank which will open Monday morning at 11:15 o'clock in the First Presbyterian church, and continue through March 10.

The schedule for the first week is complete with the exception of Friday, March 3, when a few are needed, but the second week has need of a great number of donors. It was stated at the chapter office, 39 North Beaver street today, the hours are from 11:15 a. m. to 5:15 p. m.; Saturday, 10:15 to 2:15.

Residents are asked by Mrs. John E. Elliott, chairman of the project to remember this fact. "You are giving blood to save the lives of our soldiers, who are giving their blood for your lives at the fighting front."

Those who can volunteer for the second week of the mobile unit's stay here, March 6 to 10 inclusive, are asked to register at Chapter Office, 39 North Beaver street, the Penn Power building, on the Diamond, or at other offices which will be open in the stores and theaters.

## IN, OUT IN ARGENTINA

Pedro Ramirez

Gen. Edelmiro Farrell

President Pedro Ramirez of Argentina has stepped out of office, feeling very tired and needing a long rest, and has delegated his powers to the vice president, Gen. Edelmiro Farrell, according to a government bulletin. Ramirez did not resign the presidency which left way open for his return, it was announced.

## Recognition To New Argentina Regime Unlikely

(International News Service)

MONTEVIDEO, Feb. 26.—Diplomatic circles predicted today that Uruguay, Brazil and Venezuela would refuse recognition to the new Argentine government despite the belief prevalent in Buenos Aires that such international protocol is unnecessary as Gen. Edelmiro Farrell reportedly merely accepted delegated powers.

Dispatches from the Argentine capital said that Gen. Pedro P. Ramirez "delegated" his authority to Farrell, his vice-president and war minister, because he was "very tired." Ramirez's declaration making known to the people of Argentina that he had given up his powers, made no mention of resignation. (Continued On Page Two)

## Plan Funeral For Sen. McNary

Noted Oregon Senator Taken  
By Death While In Florida  
Friday

FORT LAUDERDALE, Fla., Feb. 26.—(INS)—The body of Senator Charles L. McNary of Oregon, Republican floor leader of the U. S. Senate, reposed in a funeral home today awaiting completion of funeral arrangements.

The 1940 GOP vice presidential candidate who had represented his state in the upper house 26 years died yesterday in a small ocean front apartment he had occupied for several weeks.

McNary came to Fort Lauderdale to recuperate last December after undergoing a brain operation in Washington November 15. He had been attended by Dr. R. A. Mill. His condition had been critical for several days.

At the bedside when death came were Mrs. McNary, the former Cornelia Morton and his eight-year-old daughter, Charlotte.

The son of Oregon pioneers, McNary would have been 70 years old on June 12.

He frequently was referred to as the most popular man in the Senate today.

## Plan To Simplify Income Tax Forms

By WILLIAM THIES  
(U. S. Staff Correspondent)

WASHINGTON, Feb. 26.—The House Ways and Means Committee, flushed with its victory over President Roosevelt's tax bill veto, planned today to hear its first report on tax simplification early next week.

The committee's own tax experts, it was learned, do not expect to complete their recommendations on the first simplification item—integration of the victory, normal and surtax levies—for another week or ten days.

But Rep. Doughton (D-N. C.) chairman of the committee who led the house fight against the White House veto, said he would ask for a preliminary report in the next few days—possibly Monday or Tuesday.

Enactment of the two billion 315 million dollar revenue bill over Mr. Roosevelt's veto restored simplifica-

TESTIMONIAL DINNER  
AT THE CASTLETON

Honor was paid where it was justly due Friday night in the Castleton Hotel when the Lawrence County Bar Association tendered a testimonial dinner to the dean of the bar, Hon. J. Norman Martin, a former judge of the county and a practicing attorney for over 60 years at the local bar.

The dinner was one of the most gracious things the bar has ever done. Through it the attorneys said publicly the things they have felt privately for as long as they have practiced. For Judge Martin began his practice long before any other man at the bar.

Toastmaster R. M. Jamison, president of the bar association was the master of ceremonies. He reminded the attorneys that Judge Martin had started practice in this county on September 27, 1883. The testimonial dinner had been planned for the 60th anniversary but illness in Judge Martin's family forced a revision of the plans. In his opening remarks Mr. Jamison mentioned the fact that in 1892, long before some of those present were (Continued On Page Two)

Lieut. Condit, Carroll A. Osborne of the Lewes Coast Guard district says he and 50 other persons saw the whale swimming against a strong adverse current in the Lewes and Rehoboth canal.

"It spouted water, every few minutes," Osborne said.

Lieut. Condit, Clifford Mauld, Sr., a member of the Delaware Bay and River Pilot's association, said he sighted the whale but that it was dead—"very dead," he added.

GERMANS LOSE 142  
PLANES ON FRIDAY

By CHARLES A. SMITH  
(U. S. Staff Correspondent)

LONDON, Feb. 26.—Giant armadas of RAF heavy bombers swarmed over the German industrial city of Augsburg twice last night, pressing home their assault despite furiously resisting Nazi fighters, already stung by the loss of 142 planes in yesterday's four-pronged American daylight onslaught.

It was the third raid in less than 12 hours on Augsburg, which was among the targets blasted yesterday by warplanes of the American Eighth and Ninth Air Forces based in Britain and of the 15th Air Forces based in Italy and the Mediterranean.

A late communique from headquarters of the American strategic air forces in Europe revealed that 93 enemy interceptors fell to the blazing guns of the 15th Air Force planes yesterday. Twenty-three more were credited to bombers of the Eighth Air Force and 26 to Ninth Air Force fighters. Thirty British bombers were lost, along with 38 bombardment planes and five fighters of the Mediterranean squadrons.

Twenty-four RAF planes failed to return from last night's assault on Augsburg, which marked the second dual-pronged assault on a German city in 24 hours. Mosquito bombers and intruder planes simultaneously battered targets in southern Germany and airfields in the low countries, while heavy bombers carried out an "extensive" night-bombing program.

PITTSBURGH, Feb. 26.—(INS)—Mrs. Franklin D. Roosevelt, first lady of the land, was on record today with a warning to American citizens that they must provide for returning soldiers and sailors a country which is worth the sacrifices they have gone through, after speaking in Pittsburgh.

She refused to comment on the explosive break between President Roosevelt and Senator Alben W. Barkley over the tax bill veto.

After addressing an institute on "America's Role in World Affairs," sponsored by the American Friends Service Committee, Mrs. Roosevelt left Pittsburgh by train.

She urged the American people to show the rest of the world, through example, that diverse people from diverse backgrounds, "can get on together" and recognize the human dignity of each other, and (Continued On Page Two)

SHARON, Feb. 26.—(INS)—Highway accidents today took the lives of two men in the Sharon district. William Billig, 65, of Greenville borough, was killed when struck by a car driven, police said, by Samuel Clark, 17.

At nearby Greenville Arthur McQuiston, 28, of Sheaksville, was killed when his truck, loaded with aluminum blocks, left the highway.

## SOVIET COLUMNS NOW BATTLING IN PSKOV OUTSKIRTS

(Continued From Page One)

German heavy Russian pressure also was reported west and north-west of Rogachev.

More than 2,500 German troops were wiped out on the central front alone yesterday when they hurled 14 separate counter-attacks against advancing Soviet columns in a futile effort to seal the gaps in their shattered 150-mile line from Rogachev to Vitebsk. The Soviet high command announced.

Front dispatches to the Moscow press said the whole line is crumbling and the path to the upper Polish border, 70 miles to the west, is rapidly being blasted open.

On all northern fronts, more than 9,250 enemy troops died in the past two days attempting to check the Russian juggernaut advance, 6,000 of them in the battle for Rogachev, a Soviet communiqué announced.

Advancing along a 150-mile arc-shaped front, three Soviet armies converged on the six-way rail junction of Pskov from Dno, Luga and Kholm. Among the more than 60 Nazi-armed troops and villages seized in yesterday's drive was Melnitsy, only 23 miles northeast of Pskov.

Attacks on the United States naval armada through the night of Feb. 21 and the morning of Feb. 22 while the carrier warbirds were wreaking havoc on Saipan and Tinian.

## Also Raid Guam

Admiral Chester W. Nimitz, in a communiqué disclosing details of the attack, announced also that a "small" raid was carried out at the same time against enemy installations in Guam, former American base 111 miles southwest of Saipan.

The fact that the Saipan and Tinian harbors were devoid of Jap war vessels strengthened a belief that Japan's main battle fleet, on the run since the American thrust into the Marshalls four weeks ago, has withdrawn to the comparative safety of home waters.

In spite of persistent and continuing attacks, the carriers launched their planes according to schedule, said Admiral Nimitz's communiqué.

## Waves Of Planes

Waves of carrier warbirds twice struck Saipan and Tinian in force. Fierce air battles developed over the targets, with twenty-nine Jap planes being shot down and an additional eighty-seven destroyed on the ground.

Fifteen of the enemy planes that roared out to attack naval surface forces were knocked out of the sky by anti-aircraft fire and five more were bagged by covering fighters.

The toll of Jap ships exacted the raiders included one cargo vessel sunk, another heavily damaged and a third set ablaze. A patrol craft exploded after a direct hit and seven other small craft were heavily damaged under the rain of bombs.

Ground and harbor installations sustained heavy damage, as did airfield runways, seaplane aprons and other ground facilities. Fuel storage areas and buildings also were set afire.

After the Anzio beachhead, allied armor flew more than 800 separate sorties. Nazi planes appeared over the beachhead only four times during the day.

The latest communiqué made no mention of the fighting on the Anzio front. Previous announcements said small German patrols and tanks probed fifth army lines in exploratory thrusts after American and British troops beat off two Nazi attacks near Caroteco, 20 miles south of Rome.

Although there was no real action along the Anzio beachhead, Axis patrols remained in close contact with the allied positions and enemy artillery batteries fired steadily into the British-American perimeter.

Snow and rain hampered operations along the main fifth army front.

Another German division was revealed to have joined Field Marshal Albert Kesselring's troops massed around the Anzio bridgehead, bringing Nazi strength to ten divisions, roughly 150,000 men.

In the snow-covered mountains around Cassino, French guns were revealed to have broken up a Nazi attack in the Mount Abate area, a mile and a half east of Terrele. Three miles northeast of embattled Cassino, allied troops improved their positions on Mount Castellone.

To the west, British troops along the lower Garigliano, some 10 to 12 miles inland from the Tyrrhenian sea, beat off another German attack against their positions on Mount Ornito.

In the snow-covered mountains around Cassino, French guns were revealed to have broken up a Nazi attack in the Mount Abate area, a mile and a half east of Terrele. Three miles northeast of embattled Cassino, allied troops improved their positions on Mount Castellone.

To the west, British troops along the lower Garigliano, some 10 to 12 miles inland from the Tyrrhenian sea, beat off another German attack against their positions on Mount Ornito.

The London radio and a CBS broadcast from Naples said allied tank-busting bazookas and artillery supported American infantrymen who had spent nearly two days out of their units along the Anzio-Albano road.

## JUDGE MARTIN GIVEN TRIBUTE

(Continued From Page One)

born, Judge Martin had been appointed to the bench by Governor Robert E. Pattison.

Judge John G. Lamoree was introduced and paid his respects to the honor guest. In part he said, "I share with all of you the friendship of a great and noble man. I am singularly happy to have been associated with him. The best move I ever made was to enter his office. Throughout his long years of practice there has been no change in his devotion to his profession and his pride in being a part of it."

Said Judge W. Walter Braham, "Judge Martin is a craftsman with a rapier-like skill. He has the friendship and respect of every member of the bar from the youngest to the oldest."

Unique Presentation  
For the bar association, Attorney W. S. McCaslin made the presentation and the gift was one of unique value. It was an especially bound volume containing pictures of the court house, all of the judges who have served Lawrence county since its formation and group pictures of the bar at various periods.

Responding, Judge Martin expressed his appreciation to his fellow attorneys for their kindness. Remarks were brief, nor was there any necessity for prolonged speech for in the six years he has presided, Judge Martin has added day by day to his stature and to the esteem in which he is held.

## RECOGNITION TO NEW ARGENTINA REGIME UNLIKELY

(Continued From Page One)

From this fact apparently stemmed the belief that no new regime would have to be recognized by foreign countries.

Forced To Delegate Powers  
The Diario La Razon of Montevideo said Ramirez was forced to delegate his powers to Farrell when Col. Juan Peron ordered his troops at Campo De Mayo, on the outskirts of Buenos Aires, to march to the "Pink House," Argentina's white house—and occupy it. If Ramirez "persisted in his purposes."

Ramirez, said the paper, offered his resignation. It first was accepted, but "then it was realized that Ramirez' resignation would bring up the problem of a new recognition, therefore he was made to delegate his power to General Farrell."

Another press report declared that Peron actually is the new chief of the Argentine government, although Farrell is president.

The United Nations radio at Algiers, heard by CBS, said Buenos Aires circles had "confirmed" a report that most of the Argentine cabinet had resigned along with Ramirez.

## PLAN TO SIMPLIFY INCOME TAX FORMS

(Continued From Page One)

will be the simplification of present exemptions. This, he said, will involve increasing the exemption allowed to single persons and stating exemptions for dependents on a "family group" basis to simplify computations for the taxpayer.

The personal exemption for a single person is now \$500. Knutson held this should be increased to grant some relief to such fixed-

income taxpayers as schoolteachers.

## To Eliminate Filing

Third item on the five-point program outlined by Knutson is the graduation of taxes withheld at the source to eliminate the need of filing returns.

"We think we can eliminate 30 million tax returns under graduated withholding," he declared. Working out the details of such a revision, he admitted, will be the most difficult problem involved in simplification. In any event, he added, the

present simplification program is a "stop-gap" proposition.

The committee's fourth point is extension of the short tax form, now used by taxpayers with income up to \$3,000, to those earning \$5,000—and possible more.

The fifth change—pressed by the Republican tax spokesman himself—is to provide a special short form for farmers above \$3,000, regardless of income. This would especially benefit large cattle feeders who, he said, now find it "virtually impossible" to compute their earnings.

## MILK - A Weapon of War?

Yes, strange as it seems, milk IS a weapon of war. It is helping to build and to maintain the strength of the home front . . . our fighting forces . . . and our allies. To meet these demands, we must conserve our supply of milk and every housewife must make wise use of this precious white fluid. It means saving every drop and protecting its food value and flavor for greatest nourishment and enjoyment. Milk should always be covered and kept in a refrigerator or other cool place. Then too, it should only be used in dishes which your family really enjoys . . . for such foods are eaten, not wasted. Join the war against waste . . . conserve all dairy products.

## Meadville Man Held In Texas

MEADVILLE, Pa., Feb. 26.—(INS) State police today reported James Guy Marshall, 61, collector of state unemployment compensation in Crawford county who disappeared nearly two months ago, is being held in Dallas, Tex., on embezzlement charges.

tion center for airplane and submarine engines and site of vast Messerschmitt works in three times in less than 12 hours by the British heavy bombers and by fighter escorted America's fortresses and Liberators.

Air circles in London estimated that probably about 1,000 British planes of all types and sizes attacked the continent during the night.

Observers on England's east and south coasts also watched the two great RAF heavy bomber formations roar toward Europe said the size of the attacking forces indicated that at least 2,240 tons of explosives were poured on Augsburg.

The twin-pronged attack was the second such assault in two nights, two big RAF formations having struck at Stuttgart on Thursday night.

Exercising a round-trip flight of about 1,000 miles, the huge bombers struck at Augsburg to maximize a week of history's most devastating air offensive against the German aircraft industry in which some 10,000 Allied planes were estimated to have participated.

Drop 17,000 Tons In Week

The night blows extended into its

seventh consecutive day the furious American and British offensive against German industry during which bombers from Britain and Italy have poured 16 important Nazi aircraft and ball-bearing plants. Air circles estimated that some 17,000 tons of explosives and incendiaries have cascaded down on Germany's reeling war industries since the RAF attacked Leipzig at 4 a. m. last Sunday.

The RAF bombers roared into Germany in the wake of devastating strikes at four fighter aircraft centers in south and southwest Germany by hundreds of escorted American heavy bombers in a day-light campaign highlighted by the war's first simultaneous two-way attack on a single target—the German aircraft center of Regensburg in southern Germany.

Other formations of American heavyweights from Britain battered the Stuttgart ball-bearing works the Messerschmitt assembly center and experimental station at Augsburg and a "major" airplane components factory at Furtth.

The "greatest" number of American fighters ever dispatched on a day's mission escorted the Britain-based bombers to Europe and made their deepest penetration into the continent. U. S. Air Force headquarters revealed the previous record number of U. S. fighters sent over Europe in one day was approximately 1,000.

### BALLOT BIDS

Bids for the ballots for the April primary elections were opened Friday morning, but not by the county commissioners. The three acting for the commissioners were County Controller Andrew W. Dadds, County Commissioners' Chief Clerk William A. Eakin and Miss Ida Smith, chief clerk to Mr. Eakin.

Two bids for the approximately 60,000 ballots were opened, the low-

er being that of the Globe Printing company, for \$9.75 per thousand. The other bid was that of the Grove City Publishing company, for \$12.39 per thousand.

The commissioners, along with County Solicitor William McElwee, Jr., had to attend a meeting in Greensburg Friday, and authority was granted to the three mentioned above to open the ballots.

The meeting in Greensburg was for the purpose of discussing the new assessor law and also the municipal employees retirement law. The meeting was called by the Pennsylvania Economy League.

### SENTENCES PASSED

A number of sentences were handed down Friday morning by Judges W. Walter Brahm and John G. Lamoree.

Four were for driving while intoxicated and were fined \$100 and costs and 30 days in the county jail, to be released in three days if the fine and costs are paid. The four are Emil Jewell, Irwin R. Gibson, Ernest L. Dicks and Edward P. Mitchell.

George Margost, plea to writing numbers, was fined \$500 and given eight months in the county jail. A petition for parole will be entertained some time after the fine and costs are paid.

Palay, Capello and James Zito, up for receiving stolen goods, \$37.25 worth of war stamps stolen from the Crescent theater, were assessed half the costs each, half the amount stolen, and paroled for a year.

Charles A. Gross was called back into court for correction of a sentence handed him a short time ago. He was sentenced to 6 to 12 months in the workhouse for burglary, to be served concurrently with the balance of his unexpired sentence, which was hanging over him during his parole period. A recent opinion of the State Supreme Court makes it mandatory that sentences given for violation of parole must be served after the unexpired sentence is finished.

NEW ATROCITIES CHARGED TO NAZIS IN RUSSIAN AREA

(Continued From Page One)

they said, were herded behind barbed wire and kept in confinement for months before being executed by German firing squads. In May, 1943, in an apparent effort to wipe out traces of their crimes, the Germans dug up the bodies and began burning them, just as they did at Kiev, the city's residents added.

Before actually leaving the city, Nazi squads attempted to send a large number of Russians to Germany by rail. The station and several sections of track were dynamited, however, which led the Nazis to retaliate by blowing up private houses in the town.

Subsequently the Germans set fire to the city, which still is burning and echoing to the occasional crash of bursting explosives left behind to act as delayed action bombs. Specially picked Nazi incendiary squads known as "torch bearers" were caught within the city and were saved with difficulty from the population's wrath.

## THE PARENT PROBLEM

(Continued From Page Four)

fun, at times, with the older's companions.

The older girl should have some regular home duties be allowed certain privileges the younger cannot have, such as playing farther away from home and going later to bed than the younger. By day, the younger needs to have a regular nap till school attendance interrupts.

## Read To Little Sisters

The older should be encouraged to read often to the younger. This will improve the older's reading skill, provide the younger with profitable enjoyment, and cultivate companionship between them; also to make things with and for the younger, playing all sorts of make-believe games with her, showing the younger how to draw, color, cut, paste, drive nails, and mould with clay; make paper dolls for the younger, play house with her dolls, dressing them and the like. Since children of eight like to play school, she might be able to use the baby as an apt pupil.

Sometimes the older sister might enjoy singing to the younger and teaching her to sing, or play gramophone records to which both of them might march or dance. Wonderful if the older can be induced to enjoy the baby's crude creations with blocks, toys, crayons and fanciful yarns; converse with her and answer her questions kindly.

## May Be Jealous

Don't command the older sister to do these things. Set the stage so she will and generously praise her for any kindness she does to her baby sister; but be sure you don't allow the younger to impose on the older or expect the older to give up unduly to the baby.

If Big Sister teases or hits Little Sister often, the chances are the younger has done something to vex Big Sister or that Big Sister feels very jealous of the younger sister. If she supposes she is loved less than Baby Sister, it is true for her. My special bulletin on "Jealousy" may be had for postage for a three-cent stamp on a self-addressed envelope sent me at 235 East 45th street, New York City.

You see, the older sister was the "center of the universe" for four years and hardly has regained this place. The baby naturally gains more attention from the relatives and neighbors. If the older is more often rebuked or punished than the younger, she surely supposes she is not loved so much.

This feeling may cause the older to do more ugly things to Baby or be more disobedient to her mother. The parents should be careful not to compound this. Help the older to win more successes and feeling of worthwhileness in her own way.

## YOUR FEDERAL INCOME TAX

### No. 46 INCOME OF FARMERS

The income tax returns of farmers, including livestock raisers, fruit and truck growers, poultry raisers, and operators of plantations and ranches, will be due on or before March 15, 1944.

Farmers may keep their records and file their returns of income either on the cash receipts and disbursements basis or on the accrual basis of accounting. A consistent method must, however, be employed. If a cash basis is used, Form 1040F, "Schedule of Farm Income and Expenses," is required to be filled in and filed along with Form 1040, of Form 1040F is optional in the case of farmers who report income on the accrual basis.

A farmer who reports income on the cash receipts and disbursements basis (in which no inventories to determine profits are used) must include in gross income for the taxable year (1) the amount of cash or the value of merchandise or other property received during the taxable year from the sale of livestock or produce which was raised, regardless of when raised; (2) the profits from the sale of any livestock or other items which were purchased; and (3) gross income from all other sources.

Under the accrual basis in which inventories are used to determine the profits, farmers' gross profits are ascertained by (a) adding to the inventory value of livestock and produce on hand at the end of the year the amount received from the sale of livestock and produce, and miscellaneous receipts of income during the year, and (b) deducting from this sum the inventory value of livestock and produce on hand at the beginning of the year and the cost of livestock and produce purchased during the year. All livestock, whether purchased or raised, must be included in inventory. Livestock acquired for draft, breeding, or dairy purposes and not for sale, may be included in the inventory instead of being treated as capital assets subject to depreciation. Provided such practice is consistently followed.

If farm produce is exchanged for merchandise, groceries, or the like, the market value of the articles received in exchange is to be included in gross income. The value of farm products which are produced by a farmer and consumed by his family does not constitute taxable income. Rents received in crop shares are to be reported as income as of the year in which the crop shares are reduced to money or the equivalent of money. Proceeds of insurance, such as hail and fire insurance on growing crops, are required to be included in gross income.

Amounts received as loans from the Commodity Credit Corporation may, at the option of the taxpayer be considered as income and included in gross income for the taxable year in which received. The election once made is binding for all subsequent years unless the Commissioner approves a change to a different method of accounting. Amounts received under the Soil Conservation and Domestic Allotment Act, as amended, the Price Adjustment Act of 1938, section 303 of the Agricultural Adjustment Act, as amended, and the Sugar Act of 1937 constitute taxable income to the recipients for Federal income tax purposes.

Regular meeting Tuesday noon in the Castleton. This will be a business meeting and all committee chairmen will be expected to have a report of their activities. New members recently received will be initiated. A full attendance is anticipated following two different type meetings held in the past two weeks.

## Calico Ball Is Notable Success

### Union High School Students Enjoy Annual Event On Friday Evening

On Friday evening the gymnasium of Union high school, Scotland Lane, was transformed into a colorful ballroom for the occasion of the school's annual Calico Ball. The scene was a gay one with the girls dressed in floor-length dresses of calico or formal of bright colors. From the black, yellow, red and green crepe paper streamers which formed a tent top in a calico pattern stripe effect fell multi-colored balloons and black discs assembling records that were decorated with calico notes.

Orchestra music for dancing was played from 8:15 to 11:15.

A number of guests of the students and members of the faculty attended the ball. Among the latter was Mrs. Gerald Post who was faculty adviser of arrangements.

Student committee in charge was Miss Anne Halick, chairman, assisted by the Misses Helen McClenahan, Florence Rusu, Mary Ruby, and Angelo Ruby and Elmer Bixley, the latter five members of the advanced art class at Union high.

### Prompt Action Extinguishes Blaze In Old Jap Ammunition Dump

Mentioned in recent dispatches from the Southwest Pacific area, where the action recently took place following the landing of marines on one of the Jap-held islands, is Cpl. Thomas Barber, U. S. Marine Corps, son of Mr. and Mrs. F. E. Barber of West Washington street extension.

According to the dispatch, Jap dive bombers attacked the Yank positions after they had been wrested from the Japs, a 500-pound bomb falling only 10 feet away from the command post, without causing any casualties except to one soldier lying in a hammock among the trees. The bombing attack scored a direct hit on an old Jap ammunition dump, abandoned by the Japs which contained live ammunition. Cpl. Barber is credited with saving the jungle sector from becoming a bombing target by extinguishing the fire which followed the bomb blast. He ran forward with a tarpaulin and smothered most of the blaze. Other marines applied mud from the jungle floor.

Cpl. Barber, who was attending school at the University of Chattanooga, enlisted the day after Pearl Harbor, and has never been home on leave since that time. Three other brothers are in service. Cpl. Kenneth Barber is stationed in England with the air forces. Cpl. Jack Barber is in the engineering corps and is now recovering from an operation for appendicitis underwent just before Christmas at the Nashville convalescent center, while Richard F. Barber is a military policeman stationed in Washington, D. C.

## Consider Your Furniture Needs Carefully ...Haste makes Waste

At 9 A. M. she decides the home needs a living room suite. By 10:30 she is at the store of her choice. Fifteen minutes later she has made the purchase! Yes, some people buy furniture just like that. And what a mistake! Almost without exception, they see later some other suite that is a much better value. Don't buy furniture in haste. Shop and compare. Above all, buy from a store that is dependable!
